

Three-Generation Family Tree

Write one focus person, two parents, and four grandparents. Leave unknown facts blank.

```
graph TD; G1[GRANDPARENT 1] --- P1[PARENT 1]; G2[GRANDPARENT 2] --- P1; G3[GRANDPARENT 3] --- P2[PARENT 2]; G4[GRANDPARENT 4] --- P2; P1 --- FP[FOCUS PERSON]; P2 --- FP
```

The diagram illustrates a three-generation family tree structure. At the top level, there are four boxes for grandparents, arranged in two pairs. Each grandparent box contains fields for Name, Born, and Place. Lines connect the first two grandparents to a single parent box (Parent 1), and the next two grandparents to another parent box (Parent 2). Both parent boxes then connect to a single box at the bottom for the focus person. Each parent and focus person box also contains fields for Name, Born, and Place.

GRANDPARENT 1
Name: _____
Born: _____
Place: _____

GRANDPARENT 2
Name: _____
Born: _____
Place: _____

GRANDPARENT 3
Name: _____
Born: _____
Place: _____

GRANDPARENT 4
Name: _____
Born: _____
Place: _____

PARENT 1
Name: _____
Born: _____
Place: _____

PARENT 2
Name: _____
Born: _____
Place: _____

FOCUS PERSON
Name: _____
Born: _____
Place: _____
